Welcome to The Hotel George, an ultra-modern hotel that defines avant-garde accommodations in Washington DC. In a city where power moves like a high voltage current, The Hotel George is a vanguard of culture, where professional and casual are comfortable side by side, and where you can dive into the capital buzz, or simply get away from it all.

Like our namesake did more than 200 years ago, we're leading the way for others to follow. You coming?
